

COST-EFFECTIVE LSR Plug-N-Play conversion packages

ZEIGER
Industries

EVERYTHING YOU NEED FOR YOUR LSR CONVERSIONS

Zeiger Industries, known for injection molding performance and quality, is again taking the lead in innovation with its new LSR molding Plug-N-Play conversion kit.

The Mallard® Liquid Silicone Rubber (LSR) Plug-N-Play conversion package from Zeiger Industries is designed to take a thermoplastic molding machine and quickly convert it to an LSR molding machine.

Zeiger's LSR Plug-N-Play conversion kits allow you to easily and economically convert your existing thermoplastic injection molding machine with minimal steps and the conversion can be done on any brand or model of injection molding machine!

/// What does Zeiger offer for your LSR Plug-N-Play Conversion Kit? Plenty:

- A Water Cooled Reiloy R216 Tungsten Carbide lined barrel.
- Our Zeiger Performance (ZP) zero compression ratio, through hardened screw.
- The Mallard Zpringlok™ self-closing LSR valve assembly.
- A Water Cooled Pin-Type Shut-Off Nozzle.
- Our LSR Barrel and Screw seal kit.
- Elmet Top 5000 Dosing System.

Great designs. Affordable Options. Fast Delivery. They all add up to success for you.
